

Dear Andy,

9/26/81

Thanks for your 9/23, the story and the Connecticut article on your Murphy.

Re the tape of what the Dallas doctors said: instead of Secret Service, why not start with the LBJ Library? Their press conference is tabulated as the first off the LBJ White House. The transcript of it is available.

On several occasions the Secret Service reported total transfer of records to the Archives. If you ask it, suggest you also ask Archives. Save you time.

I hadn't thought of a press release in outline form. It might have made a difference but I doubt it. There were those to whom I'd spoke and who did have an idea of what I'd be saying who had said they'd be there and weren't. They and/or their publications preferred not to know. Three-monkeys journalism.

You did not enclose the AP story. If it is not too much trouble I'd appreciate a copy of it. It did not get used here and I doubt it was on the Maryland wire. I'd have gotten a copy.

I was aware of what Lucien Warren was up to and my alternatives. I chose the wrong one. I feared that if I took care of him I might antagonize the others, almost all of whom were unknown to me.

When the Jerusalem artichokes come will be time enough. Thanks for then, in advance.

Our best,
